

Kelly-Creswell Intermediate Series 2000-AS Palletized Air Atomized Striper

The Kelly-Creswell 2000-AS is a self contained center & edge-line striping machine offering speed and performance of a full sized unit at a fraction of the cost.

Fits in a one ton fleet side or flat bed truck and is easily removable allowing the truck to be used for other vocations.

Reversible gun carriage for painting both center & edgelines.

Two high capacity 25 gallon paint tanks and a 7 gallon cleaner tank for automatic tip flushing.

40 cfm air compressor powered by a 20 HP gasoline engine.

Exclusive KC-598 series striping guns designed specifically for application of traffic paints. Available in both bleeder and non-bleeder configurations.

Operate one and you will understand why Kelly-Creswell is the name that has defined striping since 1937.

- Rack & pinion carriage steering standard, optional hydraulic
- M40D skipline controller with footage counters is standard equipment
- 300 lb pressure glass bead system
- Pneumatic lift carriage
