

# BP-9-SP

The BP-9-SP is an affordable self-propelled 230 volt single phase blast cleaning system designed for small to medium size jobs as well as being a complimentary unit on larger jobs for doing edges and hard to reach areas. The BP-9-SP is used to prepare concrete surfaces prior to the application of paint, coatings, or overlays on garage floors, balconies, basements, hospital hallways, pool decks, and edges.

## The specifications for the BP-9-SP:

*Production Capacity:	Up to 450 sq. ft. /hr.
Blast Pattern:	9"
Travel Speed:	2 to 80 ft. per min.
Blast Motor:	4 hp
Voltage:	230 volt single phase
Amperage:	17 amps
Minimum Generator:	15 kw
Dimensions:	36"x12"x48"
Weight:	318 lbs.
Power Cord Length:	50 ft.
Seals:	Magnetic / Brushes
Distance to edge:	1.5"
Dust Collector:	Required

## Advantages over competitors:

- The equipment, as well as all wear parts, are made in the U.S.A. and there is typically no lead time when ordering parts.
- The electrical box and electrical components are engineered and constructed by a UL508A control panel group.
- The type w 12/3 electrical cord is the toughest and most wear resistant cord available.
- 24 hour customer service
